

AI-Powered Analytics Proposal

comotion.ai delivers intelligent analytics and insights to accelerate decision-making.

1. Solution Overview

Our platform combines advanced analytics with AI-driven recommendations to transform how organisations use data.

1.1 Capabilities

- **Automated insights** — Surface trends and anomalies without manual analysis
- **Natural language queries** — Ask questions in plain English
- **Predictive modelling** — Forecast outcomes with confidence intervals

2. Implementation Approach

Phase	Duration	Deliverables
Discovery	2 weeks	Requirements, data assessment
Build	6 weeks	Core dashboards, AI models
Deploy	2 weeks	Go-live, training

3. Investment Summary

Clear pricing structure with phased payments aligned to milestones. Contact us for a detailed proposal.
