

Comotion Group – Brand Overview

This document describes the Comotion group and its sub-brands. Use the corresponding theme in your frontmatter to apply each brand's fonts, colours, and assets.

1. Comotion Business Solutions

Theme: `comotion`

Comotion Business Solutions is the parent brand for consulting and delivery: analytics, strategy, and operational excellence. Use this theme for internal reviews, board updates, workshop kickoffs, and client deliverables that represent the core consulting practice.

Attribute	Value
Primary colour	#1A3B66 (deep navy)
Font	Roboto
Logo	Colour and white variants; white used on dark slide backgrounds
Slide backgrounds	Dark abstract images with gradient fallback (navy → sky blue → magenta)

2. comotion.ai

Theme: `comotion-ai`

comotion.ai is the intelligent analytics and AI solutions sub-brand. Use this theme for AI product pitches, solution proposals, and sales decks where the focus is on data-driven insights and automation.

Attribute	Value
Primary colour	#1A3B66 (navy) with multi-colour accents
Font	Inter
Accents	Green #8CC240, sky blue #4DBFED, magenta #D61B5E
Slide backgrounds	Dark abstract images; gradient cover bar and title rule

3. Seed Analytics

✓ seed analytics

Theme: `seedanalytics`

Seed Analytics is the sub-brand for analytics maturity, data quality, and strategic data initiatives. Use this theme for assessments, data quality reports, proposals, and board updates that align with the Seed Analytics brand guide and presentation style.

Attribute	Value
Primary colour	#051F4C (dark navy)
Fonts	Plus Jakarta Sans (headings), Sora (body)
Accents	Medium gold #B5AFA2, dark gold #88837A
Presentation	White slide background; "Private and Confidential" footer when sensitivity is confidential

4. Choosing a theme

Set `theme:` in your frontmatter to one of: `comotion`, `comotion-ai`, or `seedanalytics`. All three themes support **document** and **presentation** modes and sensitivity levels (public, internal, confidential, secret). Generate PDF or Word output using `scripts/md_to_pdf.py` with `--themes-dir` pointing at the skill's `themes/` directory.
