

Board Update — Analytics & Data

Seed Analytics | Q1 2025

Executive Summary

- **Data platform** — Core pipelines stable; two new sources in pilot
- **Governance** — Policy draft approved; rollout from April
- **Capacity** — One additional analyst from Q2; skills plan updated

Key Metrics

Pipeline reliability	99.2%	Within target
Report delivery	On track	No overdue board packs
Data quality score	87%	Target 90% by June

Risks and Mitigations

- **Risk:** Key person dependency on legacy system knowledge
Mitigation: Documentation sprint in March; handover sessions scheduled
- **Risk:** New source integration delayed by vendor API changes
Mitigation: Fallback to file-based load agreed; go-live shifted to May

Ask

Board Ask

- **Approve** governance policy and rollout timeline
- **Note** Q2 hire and updated skills plan
- **No additional budget** requested this quarter
