

Analytics Enablement Programme

Proposal for Acme Corp | Seed Analytics

Objective

- **Unify** reporting across Finance, Sales, and Operations
- **Establish** a single source of truth for key metrics
- **Enable** self-serve analytics for 50+ business users within 12 months

Scope

Discovery and design	Data model, KPI catalogue, UX wireframes	6 weeks
Build and integrate	Pipelines, semantic layer, dashboards	14 weeks
Rollout and adoption	Training, support, governance	8 weeks

Approach

- **Phased delivery** — Finance first (Q2), then Sales and Operations (Q3–Q4)
- **Agile sprints** — Two-week cycles with demos and feedback
- **Governance from day one** — Definitions, ownership, and change control

Next Steps

Thank You

Seed Analytics — Growing through data.
